# Build Your Organization Website

How do I change my website's core layout files?

To change your website's core layout files, follow these steps:

1. Go to the Admin Tools tab at the top.

2. Go to Template Editor under the Web Builder heading.

3. Your template editor will refer to your activated theme manager. If you'd like to edit a different theme, follow these steps:

a. Go to the Admin Tools tab at the top.

b. Go to Organization Settings under the Website Builder heading.

c. Click on the green Activate button to select a new theme.

4. Under the FILE CONTENT: home.php heading, edit your website template using HTML and CSS.
