Website Page Management

How do I set up my website's navigation presentation?

To set up your website’s navigation presentation, follow these steps:

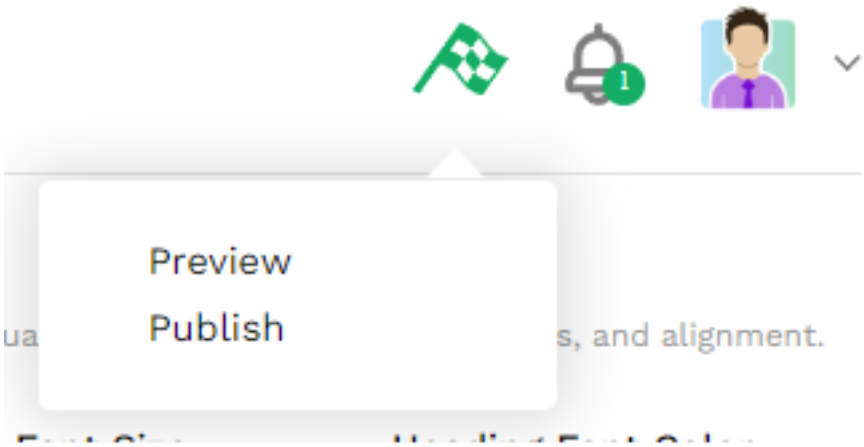

1. Go to the Admin Tools tab at the top.
2. Go to Navigation Order under the Web Builder heading.
3. Drag and drop the pages to the correct position by clicking and holding the blue resize icon.
4. To move a page to a sub-navigation, move it under the parent page and drag it to the right.
5. Select or deselect the option to Add Login to Navigation at the bottom.

6. To publish changes, click on the green checkered flag icon beside your notification bell icon and select Publish. All changes must be published to be shown on the public-facing website.
