Business Type Management

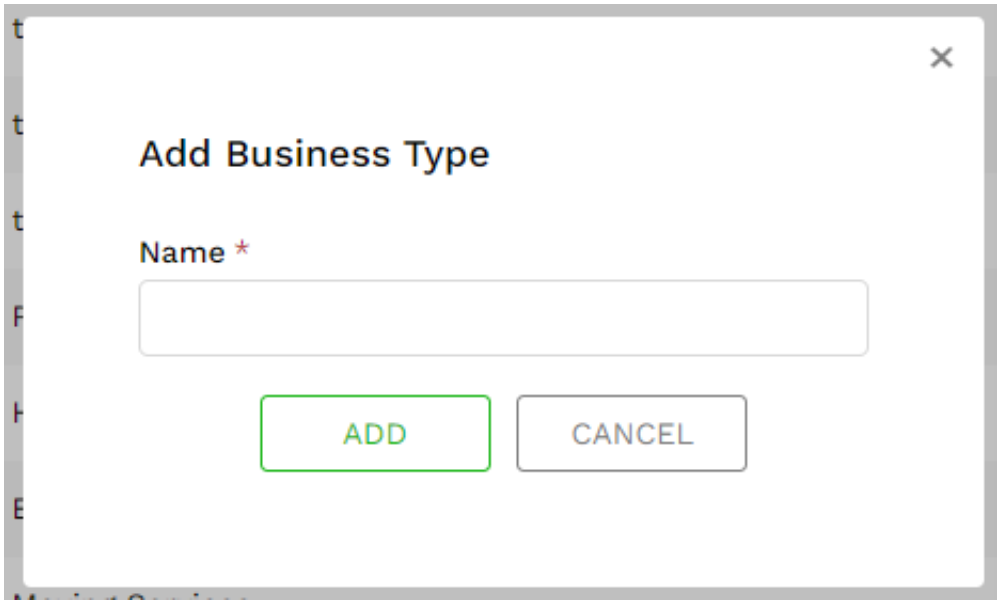

How do I add a new business type?

To add a new business type, follow these steps:

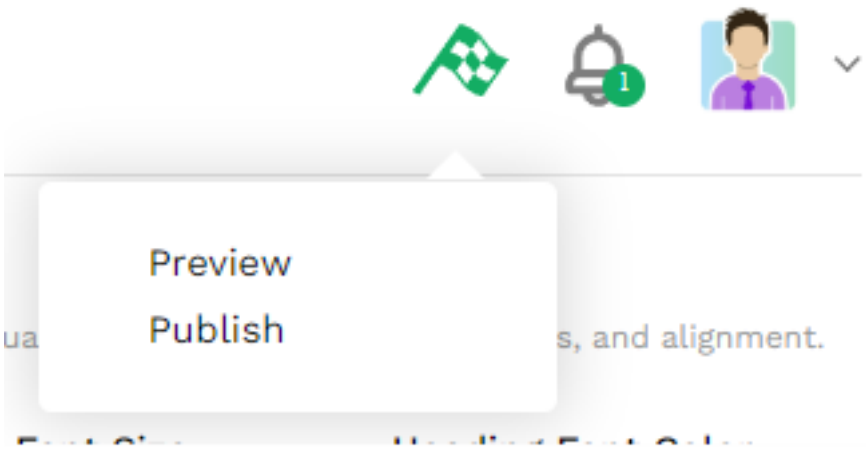

1. Go to the Admin Tools tab at the top.
2. Go to Open Business Types under the Web Builder heading.
3. Click on the green Add Business Type button.

4. Enter a name for your new business type.
5. Click on the green Add button. If you no longer want to add a new business type, click on the gray Cancel button.

6. To publish changes, click on the green checkered flag icon beside your notification bell icon and select Publish. All changes must be published to be shown on the public-facing website.
